December/2018 Braindump2go 1Y0-371 Exam Dumps with PDF and VCE New Updated Today! Following are some new 1Y0-340 Real Exam Questions:1.|2018 Latest 1Y0-371 Exam Dumps (VCE & PDF) 155Q&As Download:https://www.braindump2go.com/1y0-371.html2.|2018 Latest 1Y0-371 Exam Questions & Answers Download:https://drive.google.com/drive/folders/1l5X38YceynCVZu3Po-ctD9j5ycZgcWuk?usp=sharingQUESTION 23Scenario: A Citrix Engineer wants to configure a NetScaler Gateway with two-factor authentication within a new XenMobile deployment while providing users with the benefits of single sign-on to the existing XenApp and XenDesktop resources. The engineer configured a Public Key Infrastructure (PKI) for other components in the environment already and would like to use the same PKI. Which two types of authentication policies will the engineer need to add to the NetScaler Gateway virtual server? (Choose two.)A.   LDAPB.   CertificateC.   RadiusD.   TACACS**Answer: AB**QUESTION 24What are two scenarios in which a Citrix Engineer must configure Mobile Service Provider (MSP) for XenMobile Mail Manager? (Choose two.)A.   To query unmanaged ActiveSync devicesB.   For BES 4 and BES 5 integrationC.   To control ActiveSync access for unmanaged devicesD.   For BES 10 integration **Answer: AB**QUESTION 25Scenario: A Citrix Engineer plans to implement XenMobile and integrate it with an existing XenDesktop 7.6 environment. The engineer also plans to use WorxMail in Secure Ticket Authority (STA) mode.Which statement is true regarding the NetScaler configuration?A.   The XenMobile Server could function as the STA for both WorxMail and XenDesktop, but the XenDesktop Delivery Controllers CANNOT perform this function.B.   The XenDesktop Delivery Controller could function as the STA for both WorxMail and XenDesktop, but the XenMobile Server CANNOT perform this function.C.   Either the XenMobile Server or the XenDesktop Delivery Controller could be used as the STA in this setup.D.   Both the XenMobile Server and the XenDesktop Delivery Controller must be specified as STAs.**Answer: D**QUESTION 26Which configurations must a Citrix Engineer make to integrate XenMobile with XenApp/XenDesktop for a customer whose users access their environment from internal and external network locations?A.   Add the XenMobile Server to the list of Secure Ticket Authorities (STAs) on StoreFront or Web Interface.B.   Add Secure Ticket Authorities (STAs) for the XenApp/XenDesktop environment to the list of STAs on the NetScaler Gateway vServer being used for XenMobile.C.   Configure the XenMobile Server as a Delivery Controller within the StoreFront or Web Interface configuration.D.   Configure a single NetScaler Gateway for both XenMobile traffic and existing XenApp/XenDesktop traffic.**Answer: B**QUESTION 27What are two situations in which XenMobile notification templates are used? (Choose two.)A.   As part of a XenMobile automated action to auto-notify when specified criteria are met.B.   As part of the XenMobile enrollment process to auto-notify user post enrollment.C.   As part of a XenMobile Device policy to auto-notify when a XenMobile policy becomes active.D.   As part of the XenMobile client property policies to auto-notify when client settings are delivered to a device.**Answer: AB**QUESTION 28Which two options are advantages of configuring a scheduling policy to Always? (Choose two.)A.   Improves email flow experience.B.   Reduces the number of authentication prompts.C.   Increases responsiveness of policy pushes.D.   Strengthens security posture.**Answer: CD**QUESTION 29What is the correct format for defining the XenMobile web enrollment service root URL?**A.   https://<MS** CA Server IP>/CertsrvB.   **https://<MS** CA Server IP>:4443/CertsrvC.   **https://<MS** CA Server IP>/Certnew.cerD.   **https://<MS CA Server IP>/Certfnsh.asp**Answer: A**QUESTION 30Which two options must a Citrix Engineer enable in order to configure XenMobile auto- discovery for iOS and Android devices in a XenMobile Enterprise deployment? (Choose two.)A.   Domain suffixB.   FQDN for the enrollment load-balancing vServerC.   Public SRV recordD.   XenMobile cluster node IDs**Answer: AB**QUESTION 31How could a Citrix Engineer deploy a common application set to all corporate-managed iOS and Android devices?A.   Assign users to a custom role.B.   Assign required applications to the AllUsers Delivery Group.C.   Assign a deployment rule to users.D.   Assign an App Access policy to the AllUsers Delivery Group.**Answer: B**QUESTION 32Scenario: A customer plans to use the XenMobile Server as the SAML Identity Provider for ShareFile authentication. SAML authentication should be available for MDX users as well as through the desktop sync client for Windows and Mac. The customer does NOT plan to use StorageZone Connectors.What is the minimum configuration that a Citrix Engineer must perform in order to meet the needs of the customer?A.   Populate the XenMobile Server Settings > ShareFile tabB.   Populate the XenMobile Server Settings > ShareFile tab Create the appropriate NetScaler Gateway Session profile and policyC.   Populate the XenMobile Server Settings > ShareFile tab Create the appropriate NetScaler Gateway Session profile and policy Adjust the 'login URL' settings on the ShareFile Control PlaneD.   Populate the XenMobile Server Settings > ShareFile tab Create the appropriate NetScaler Gateway Session profile and policy Adjust the 'login URL' settings on the ShareFile Control Plane Create a AAA vServer on NetScaler**Answer: C**QUESTION 33Which two steps could a Citrix Engineer take to tag both corporate-owned and employee- owned devices? (Choose two.)A.   Use enrollment invitations.B.

Import a provisioning file.C.   Use an automated action.D.   Add the devices to a Delivery Group.**Answer: AB**
