Free Instant Download HP0-S42 Exam Dumps(PDF & VCE) 210Q&As from Braindump2go.com Today!100% Real Exam Questions! 100% Exam Pass Guaranteed! **NEW QUESTION 21 - NEW QUESTION 30:** 1.|2016 Sep. NEW HP0-S42 Exam Dumps(PDF & VCE) 210Q&As Download:<http://www.braindump2go.com/hp0-s42.html>2.|2016 Sep. NEW HP0-S42 Exam Questions & Answers:<https://drive.google.com/folderview?id=0B75b5xYLjSSNWm5zRU9iYm8zZms&usp=sharing> QUESTION 21Which service solution should you recommend to handle equipment that runs business critical IT applications with designated managers? A. Proactive CareB. Datacenter CareC. Foundation CareD. Proactive Care Advanced Answer: DExplanation:Proactive Care Advanced is designed to support servers running business-critical IT. This service expands on the Proactive Care Service by providing localized account managers who work with the customer's IT staff to keep systems in peak performance, manage critical events, and quickly address complex issues. QUESTION 22One of your customer's remote transaction servers generates an SNMP health alert. Which HP management tool should you use to access more information about the alert? A. Insight OnlineB. Intelligent ProvisioningC. Smart Update ManagerD. Smart Storage Administrator Answer: A QUESTION 23You are using HP Power Advisor to assist in architecting an HP BladeSystem solution that contains HP FlexFabric interconnect modules. What information about the solution can the tool provide? (Select two.) A. SFP + module power requirementsB. UPS sizing based on defined run timesC. power report for systemD. a cost-of-ownership calculationE. mismatch between interconnect modules and network adapter Answer: BD QUESTION 24What are benefits of PDUs? (Select two.) A. voltage conditioningB. flexible 1U/0U rack mounting optionsC. superior cable managementD. battery backupE. AC/DC conversion Answer: BCEExplanation: http://www8.hp.com/emea_middle_east/en/products/pdu/product-detail.html?oid=288868Modular PDUs consist of two building blocks the Core Unit (core) and the Extension Bar(s) (sticks). The Core Unit is 1U/0U, and the Extension Bars mount directly to the frame of the rack in multiple locations. The HP Modular PDUs allow for consolidation of cords making cord management easy and efficient. All of the HP Modular PDUs offer superior cable management and accessibility. Can be installed in any U position in the rack. QUESTION 25A customer has a single array group with three SAS disk drives in a RAID 5 configuration. Which method should the customer use, with the least risk, to protect their data volume in case of a drive failure? A. configure RAID 1 ADMB. add more drives to the RAID 5 groupC. configure a hot spareD. migrate the RAID 5 array group to RAID 6 Answer: C QUESTION 26Which method will allow you to manage and maintain all operating system drivers and system hardware for every server in a customer's data center? A. Create a Converged Infrastructure group in HP OneView for all applicable servers to deploy updates.B. Use HP Smart Update solution to deploy updates.C. Use HP SUM and iLO Federation groups to deploy updates.D. Use the HP REST API and the Embedded UEFI Shell to deploy updates. Answer: CExplanation:HP SUM is only scalable to 50 nodes, so it needs iLO Federation and Federation groups to scale and update multiple servers at the same time. <http://www8.hp.com/us/en/products/server-software/product-detail.html?oid=5182020> QUESTION 27Which commands are used in HP-UX to determine operating system versions and patch levels? (Select two) A. sysconfigB. unameC. fcsmutilD. swlistE. ioscan Answer: BD QUESTION 28A customer needs application acceleration in their hyperscale computing environment, which includes big data analytics and high performance databases. Which memory types meet the customer's needs? A. LRDIMM 3DSB. NVDIMM C. LRDIMM D. RDIMM Answer: BExplanation: <http://www8.hp.com/us/en/products/server-memory/product-detail.html?oid=1008830324>Do you need to increase the performance of your data center database and analytics applications? HPE Persistent Memory products deliver the performance of memory with the persistence of traditional storage. QUESTION 29A customer needs to manage and maintain the operation of a large hyperscale cluster of SL based servers. The customer needs to run a set of operating system commands and execute them from within the operating system on all the SL servers. Which method should the customer use? A. Execute the commands from the Cluster Management Utility on all of the serversB. Create a script and use the RESTful interface tool to execute the commands on all of the serversC. Boot HP SUM on one SL node and use iLO federation to execute the commands on all of the serversD. Use HP SUM CLI online from within the SL operating system and execute the commands by using multicast Answer: AExplanation: <http://www8.hp.com/us/en/products/server-software/product-detail.html?oid=3296361> QUESTION 30What enables out-of-band management of multiple rack-mount servers from a single web interface? A. Onboard AdministratorB. iLO FederationC. Intelligent ProvisioningD. Virtual Connect Enterprise Manager Answer: BExplanation:iLO Federation should be correct, as iLO is out of band management. Manage at scale <http://community.hpe.com/t5/Converged-Data-Center/Managing-at-scale-iLO-Federation/bap/6794281#.V15tPrt97IV>
